HACU

**NATIONAL INTERNSHIP PROGRAM
INFORMATION SESSION**

Opening the Doors of Opportunity

Since 1992, HACU has offered one of the best internship programs in the country. We believe that participation in an internship is an invaluable opportunity to gain hands-on work experience. Unlike so many other internship programs in the nation's capitol, there are no fees to apply for or participate. On top of that, all internship positions are paid, housing and travel can be arranged at no cost to our interns, provisions can be made for interns to receive academic credit, and free professional development activities are regularly offered during the program.

All Majors Welcome. Paid Internships.

For more information regarding this event, please contact Tiffany Dix, STEM Job Developer at (559) 638-3641, Ext. 3471 or e-mail tiffany.dix@reedley-college.edu. In cooperation with STEM Program, Reedley College, and the USDA HSI National Program.
